4. (Canceled)
5. (Previously Presented) A hollow panel comprising:  
first hollow portions arranged in a substantially same plane and having a first width; and  
second hollow portions arranged in the substantially same plane and having a second width different from the first width, wherein partition walls of the first hollow portions and the second hollow portions are made of like wood elements.
6. (Canceled)
7. (Canceled)
8. (Currently Amended) The hollow panel according to claim 5, wherein a solid portion forming member is ~~inserted into~~ disposed at a part of the first and second hollow portions, the solid portion forming member having a section shape which substantially corresponds to a section shape of the part of the first and second hollow portions.
9. (Canceled)
10. (Previously Presented) A hollow panel comprising:  
first and second partition walls defining a plurality of hollow portions arranged in a substantially same plane, wherein a thickness of the first partition walls is different from that of the second partition walls and each hollow portion of the plurality of hollow portions has the same sectional area.

11. (Canceled)
12. (Currently Amended) The hollow panel according to claim 10, wherein a solid portion forming member is ~~inserted into~~ disposed at a part of the hollow portions, the solid portion forming member having a section shape which substantially corresponds to a section shape of the part of the first and second hollow portions.
13. (Currently Amended) A hollow panel comprising:
  - first hollow portions arranged in a substantially same plane and having first sectional areas; and
  - second hollow portions arranged in the substantially same plane and having second sectional areas different from the first sectional areas, wherein a solid portion forming member is ~~inserted into~~ disposed at some, but less than all of the first and second hollow portions, the solid portion forming member having a section shape which substantially corresponds to a section shape of the part of the first and second hollow portions.
14. (Previously Presented) A hollow panel comprising:
  - first hollow portions arranged in a substantially same plane and having a first width; and
  - second hollow portions arranged in the substantially same plane and having a second width different from the first width, wherein a solid portion forming member is inserted into a some, but less than all of the first and second hollow portions, the solid portion forming member having a section shape which substantially corresponds to a section shape of the part of the first and second hollow portions.
